**CC:** Heppler, Leslie; Morse, Jan

Laura Nelson from Red Leaf was here for a meeting, and she asked me to stamp certain information confidential. (I was going to have her do it, but she had to catch a flight.) All of the files numbered S0470093 through S0470099 have maps and legal descriptions that are now marked confidential. I don't know what needs to be done from here, if the files need to be re-scanned and if separate folders need to be made.

All of these NOIs are essentially the same except for the legal descriptions and maps. Each one has four maps (two in the current NOI and two that are superseded) and two pages of text that need to be considered confidential.
